ABSTRACT

This publication presents data provided by institutions of higher education in a questionnaire on Financial Statistics of Institutions of Higher Education, which was a part of the fifth annual Higher Education General Information Survey (HEGIS). Results indicated: (1) Current funds revenues for institutions of higher education totaled $21.6 billion for fiscal year 1969-70. (2) Publicly controlled institutions continued to report an increasing share of total revenues. (3) Privately controlled institutions reported $7.8 billion in current funds revenues in 1969-70. (4) Governmental appropriations were the greatest source of revenues. (5) Student tuition and fees were the second greatest source of revenues to institutions of higher education. (6) Current funds expenditures by all institutions of higher education rose at a faster pace than did total enrollments. (7) The biggest function of current funds expenditures was for all institutions and departmental research. (8) Average expenditures per student for all institutions of higher education went up $169 from the 1968-69 average of $2,454 to $2,623 in 1969-70. (9) Expenditures per student averages in 1969-70 ranged from a high of $5,533 for private universities to a low of $941 for public 2-year colleges. (Author/MJM)

HIGHLIGHTS

Current funds revenues for institutions of higher education totaled $21.6 billion for fiscal year 1969-70. This was a 14-percent increase over the previous fiscal year's total of nearly $19.0 billion.

Publicly controlled institutions continued to report an increasing share of total revenues. In 1969-70 revenues for publicly controlled institutions totaled nearly $13.9 billion, or 64 percent of the total. This was a 17-percent increase over the nearly $11.9 billion received in 1968-69 when the public sector accounted for 62 percent of all revenues.

Privately controlled institutions reported nearly $7.8 billion in current funds revenues in 1969-70. This was a 9-percent increase over the $7.1 billion received the year before.

Governmental appropriations were the greatest source of revenues. The total was $6.9 billion in 1969-70. State governments provided nearly $5.7 billion, or 82 percent of the total.

Student tuition and fees were the second greatest source of revenues to institutions of higher education. These revenues rose 16 percent to $4.4 billion.

Current funds expenditures by all institutions of higher education rose at a faster pace than did total enrollments. Expenditures increased 14 percent to nearly $21.2 billion in 1969-70, while enrollments increased only 7 percent.

The biggest function of current funds expenditures was for instruction and departmental research. Expenditures were $6.9 billion in 1969-70, or 33 percent of total current funds expenditures.

Average expenditures per student (EPS) for all institutions of higher education went up $169 from the 1968-69 average of $2,454 to $2,623 in 1969-70. The EPS average increased because expenditures grew faster than enrollments.

EPS averages in 1969-70 ranged from a high of $5,533 for private universities to a low of $941 for public 2-year colleges.

FOREWORD

This publication presents data provided by institutions of higher education in a questionnaire on Financial Statistics of Institutions of Higher Education (OE Form 2300-4), which was part of the fifth annual Higher Education General Information Survey (HEGIS). This finance questionnaire gathered data for the 1969-70 fiscal year on current funds revenues, current funds expenditures, physical plant assets, indebtedness on physical plant, the value and earnings of endowment, as well as data on 1970-71 basic student charges. This publication provides the tabulations of current funds revenues and current funds expenditures. Separate publications will deal with the data on financial aspects of property and on basic student charges.

The totals in all tabulations in this report are for all institutions of higher education. While some institutions did not respond (see appendix E, List of Nonrespondents), for those institutions data were imputed for national and State totals (see appendix A, Methodology).

Data for some institutions have been omitted at their request in certain items of the tabulations. Other data also have been omitted if their inclusion would allow the calculation of data that the institutions wanted withheld.

So many people contributed their efforts and knowledge to the production of this publication, that it is impossible to credit them all by name. However, the authors particularly wish to recognize the contributions of Estelle Aubrey, Ruth Muffler, and Suzanne Seginak, of this office, who edited and organized these data.

We extend our sincere appreciation to the more than 2,000 business officers and other officials of those institutions who assisted us in the development of the survey and completed the questionnaire.

Theodore H. Drews, Chief
Higher Education Surveys Branch

SUMMARY

Current funds revenues and expenditures of institutions of higher education continued to increase for the 1969-70 fiscal year. Revenues increased 14 percent, from the 1968-69 fiscal year total of nearly $19.0 billion to $21.6 billion for 1969-70; expenditures also increased 14 percent for this period, from $18.6 billion to $21.2 billion. Previously, both current funds revenues and expenditures had increased 12 percent each from 1967-68 to 1968-69 and 16 percent each from 1966-67 to 1967-68.

Rates of increase for revenues and expenditures were greater than those for enrollment, inflation, 1/ or Gross National Product. While current funds revenues and expenditures increased 14 percent from fiscal year 1968-69 to 1969-70, enrollment in institutions of higher education rose only 7 percent. Inflation for the same period was 6 percent and Gross National Product increased 5 percent. For the 3-year period from 1966-67 to 1969-70, current funds revenues and expenditures rose 48 percent each, approximately twice the 25-percent growth in enrollments and the 23-percent increase in GNP, and more than three times the 15-percent inflation for the same period.

Current Funds Revenues

Current funds revenues for all institutions of higher education increased 14 percent, from $19.0 billion in 1968-69 to $21.6 billion in 1969-70. Publicly controlled institutions reported revenues of nearly $13.9 billion, or 64 percent of the total. This was a 17-percent increase over the $11.9 billion received in 1968-69. Current funds revenues for private institutions increased 9 percent in 1969-70, from $7.1 billion in 1968-69 to nearly $7.8 billion. Although revenues increased for private institutions in 1969-70, their percentage of total revenues dropped slightly from 38 percent for 1968-69 to 36 percent for 1969-70. This was at least partially due to the fact that during this period enrollments in private institutions rose only 1 percent, while enrollments in public institutions increased 9 percent.

Total revenues for private 2-year colleges decreased 4 percent for 1969-70 to $232 million; at the same time enrollments for these colleges decreased 10 percent. Revenues for private universities and other 4-year institutions, however, increased 7 percent to nearly $3.9 billion and 12 percent to $3.7 billion, respectively.

1/ As measured by Consumer Price Index. The monthly indexes were averaged on a July-to-June basis to correspond with the school year and converted to 1969-70 = 100.

Public universities continued to report the largest share of current funds revenues of any level of institution in 1969-70. Their revenues of $8.3 billion represented a 13-percent increase over the 1968-69 figure of $7.4 billion. The revenues of other public 4-year institutions went up 23 percent to $3.7 billion. However, 2-year public colleges reported the greatest percentage increase in revenues for 1969-70. Revenues for these schools rose 27 percent, from $1.5 billion to nearly $1.9 billion, while enrollments in public 2-year colleges increased 12 percent.

Sources of Revenues

For all institutions, the greatest sources of revenues were governmental appropriations. 2/ These totaled $6.9 billion in 1969-70. Of these governmental appropriations, State governments were reported to have provided nearly $5.7 billion, or 82 percent of the total. This $5.7 billion was a 20-percent increase over the $4.7 billion State governments provided in 1968-69. Local governments' appropriations totaled nearly $728 million, or 27 percent more than in the previous fiscal year. The Federal Government's appropriations were $517 million, or 14 percent greater than the $453 million reported in 1968-69.

Revenues from student tuition and fees were the second greatest source of revenues for colleges and universities. These revenues rose 16 percent to $4.4 billion, or 21 percent of all current funds revenues in 1969-70. This 16-percent increase was the result of 7 percent larger enrollments and higher charges to the students.

The third largest source of current funds revenues was for sponsored research. 3/ These revenues comprised nearly 9 percent of all current funds revenues. They were more than $1.8 billion in 1969-70, a 5-percent increase over the previous fiscal year. The Federal Government supplied nearly $1.5 billion of sponsored research funds.

Gross receipts from housing and food services and other auxiliary enterprises comprised the fourth and fifth largest sources of current funds, respectively. Revenues from housing and food services were less than $1.8 billion, and revenues from other auxiliary enterprises such as student stores and intercollegiate athletics were $1.1 billion. Comgined revenues from auxiliary enterprises represented 13 percent of total current funds revenues.

2/ Governmental appropriations included all unrestricted funds received from governmental sources that were expendable for educational and general purposes.

3/ Sponsored research revenues were given by outside organizations for specific research projects made in accordance with contracts or other written agreements.

Much smaller sources of current funds for educational and general purposes were private gifts and endowment income. Private gifts totaled only $617 million, 4/ or 3 percent of total current funds revenues. Private gifts increased only 2 percent over the previous fiscal year's total of $60[illegible] million. Endowment income was an even smaller source of funds in 1969-70, $447 million or 2 percent of total revenues. However, endowment income increased 8 percent over the previous year's figure of $413 million.

For publicly controlled institutions, the five largest sources of current funds revenues were the same as those listed above for all institutions of higher education. Sources of revenues to private institutions, however, were different with respect to the proportion of total current funds revenues that each source provided.

The largest single source of revenues for privately controlled institutions was student tuition and fees. Tuitions totaled $2.7 billion, or 35 percent of the nearly $7.8 billion total revenues. The 11-percent increase in tuition and fees revenues over the previous year indicated that private institutions raised their charges to the students since enrollments during the same period increased only 1 percent.

The next largest source of revenues to private colleges and universities were revenues for sponsored research. These revenues totaled $844 million, or 11 percent of total current funds revenues.

Gross revenues from housing and food services totaled nearly $802 million, the third largest source of revenues to private institutions.

Private gifts were the fourth largest source of revenues to private institutions, totaling nearly $559 million in 1969-70, or 7 percent of total revenues. Gifts were only 1 percent more than the 1968-69 total of $552 million.

Federally Funded Research and Development Centers 5/ operated by privately controlled institutions of higher education received a total of $447 million, or 6 percent of total revenues. Funds for the Centers went up $29 million, or 7 percent above those for the previous year, and represented the fifth largest source of current funds.

4/ This total included the estimated value of contributed services and bequests; the figure excluded private funds received for sponsored research, other sponsored programs, and student aid grants.

5/ In 1970 there were 23 university-administered Centers operating in 14 States and the District of Columbia. Of these 23 Centers, 12 were administered by privately controlled institutions.

Current Funds Expenditures

Current funds expenditures for all institutions of higher education increased 14 percent from nearly $18.6 billion in 1968-69 to nearly $21.2 billion in 1969-70. Expenditures by publicly controlled institutions were $13.3 billion, or 63 percent of all institutions' expenditures. This was $1.8 billion more than the previous fiscal year, and represented an increase of 16 percent.

Privately controlled institutions expended slightly over $7.8 billion, or $44 million more than they reported in revenues. Expenditures for these schools increased 11 percent in 1969-70, or $746 million over the previous year's total of nearly $7.1 billion.

Current funds expenditures exceeded current funds revenues at private universities and other 4-year institutions by nearly $42 million and $8 million, respectively. Private 2-year institutions and all levels of public institutions reported slightly more revenues than expenditures.

Functions of Expenditures

For all institutions, the biggest function (or item) of expenditures was for instruction and departmental research. 6/ Expenditures were $6.9 billion, or 33 percent of total current funds expenditures. In 1968-69 expenditures for instruction and departmental research represented 32 percent of the total. Expenditures had increased $949 million or 16 percent in that 1-year period.

Expenditures of the executive and administrative offices and those for general institutional expense were called "other educational and general expenditures." These expenditures were nearly $2.7 billion in 1969-70, or 13 percent of the total. This second largest function of expenditures increased 16 percent over the nearly $2.3 billion expended the previous year.

Sponsored research expenditures were $1.8 billion, and represented the third largest function of current funds expenditures. (Revenues and expenditures for sponsored research were nearly identical in 1969-70.)

Housing and food services expenditures were $1.6 billion, and represented the fourth largest function. (Revenues of housing and food services exceeded expenditures by almost $154 million.)

6/ Included in this figure were teachers' salaries and other expenses directly attributable to the cost of instruction. Sponsored research expenditures were not included in this figure.

The fifth greatest item of expenditures was physical plant maintenance and operation--$1.5 billion. These expenditures rose 15 percent over the 1968-69 figure of $1.3 billion.

The five largest items of expenditures for privately controlled institutions were the same as those listed above for all institutions, public and private.

For publicly controlled institutions, the five largest categories of expenditures were instruction and departmental research, other educational and general, physical plant maintenance and operation, sponsored research, and housing and food services, in that order.

The total current funds expenditures of nearly $21.2 billion included an estimated $718 million that was actually expended for physical plant assets.

Expenditures Per Student

Expenditures per student (EPS) were computed to indicate the approximate cost of educating one student for 1 year. These EPS averages were derived by dividing current funds expenditures data by enrollment data. 7/ This was done for 2 fiscal years, 1968-69 and 1969-70, and the dollar increase in EPS was noted. (See table 1.)

The average EPS for all institutions in 1969-70 was $2,623. Thus, the cost of educating one student in 1969-70 was $169 more than it was in 1968-69. This was because institutions of higher education increased their current funds expenditures 14 percent from 1968-69 to 1969-70, while their enrollments increased 7 percent for the same period.

The EPS averages for privately controlled institutions increased more than those for publicly controlled institutions. This was due to the fact that private institutions had a greater gap between their increased expenditures and their relatively consistent enrollment than did public institutions. From 1968-69 to 1969-70, private institutions increased their total current funds expenditures 11 percent while total enrollment grew only 1 percent. For public institutions, however, expenditures were up 16 percent and enrollment increased 9 percent. Because expenditures increased more than enrollment, both publicly and privately controlled institutions had higher EPS averages in 1969-70 than in 1968-69. For

---

7/ Total enrollment data were used; they included all degree-credit and nondegree-credit students. Data used were published in Fall Enrollment in Higher Education, 1969; Supplementary Information, Summary Data (OE) 72-6, U.S. Department of Health, Education, and Welfare, Office of Education, Washington, D.C.: U.S. Government Printing Office, 1970, p. 11.

publicly controlled institutions the EPS average went up $143, from $2,105 in 1968-69 to $2,248 in 1969-70. Private institutions' average EPS rose $312, from $3,361 to $3,673. Institutions with the highest EPS were private universities ($5,533). 8/ Public universities had the next highest average ($3,621). The lowest EPS figure was for public 2-year colleges ($941) which had the largest percentage growth in enrollment and expenditures.

Data in this report are rounded to the nearest thousand. Therefore, zero in the tables indicates that the amount reported is less than $500.

In addition, some institutions requested that certain data be kept confidential. To avoid disclosure of these restricted data through deduction, others also had to be suppressed in the tables. Blank cells indicate that data have been suppressed to maintain confidentiality. The suppressed amounts, however, are included in the totals shown.

8/ U.S. Service Schools had the highest EPS ($10,368) but were averaged in with publicly controlled other 4-year institutions.

Appendix A

METHODOLOGY

The survey form "Financial Statistics of Institutions of Higher Education," OE 2300-4, was sent out as part of the Higher Education General Information Survey package for 1970. The total population of inquiry was 2,552 institutions. A copy of the survey form is shown in appendix F.

Completed questionnaires were received from 2,379 institutions--a response rate of 93 percent. The population of inquiry and the numbers of respondents and nonrespondents, by level of institution, control, and region and State are shown in appendixes B, C, and D, respectively. The institutions that failed to respond or to provide adequate data are listed in appendix E.

One of two methods was used to adjust for nonresponse, depending on whether an institution's data were available for a prior or succeeding year. If an institution had reported data for another year, those data were adjusted in accordance with trends established in previous HEGIS surveys and then entered as the institution's report for fiscal year 1969-70.

If no other year's data were available for an institution, peer institution data for fiscal year 1969-70 were used. Peer institutions were selected on the basis of three criteria: location (State or region), level of instruction, and enrollment size.

REPRODUCTION OF SURVEY FORM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

HIGHER EDUCATION GENERAL INFORMATION SURVEY

FINANCIAL STATISTICS OF INSTITUTIONS OF HIGHER EDUCATION FOR FISCAL YEAR ENDING 1970

INSTRUCTIONS AND DEFINITIONS

GENERAL

This financial survey is designed, in general, to be compatible with groupings and definitions in **College and University Business Administration, Revised Edition**, published by the American Council on Education, 1785 Massachusetts Avenue, NW., Washington, D.C. 20036.

This is a statistical report. If exact data are not available, please estimate.

Please examine the definitions and instructions. If you need additional clarification on any of the items, please call Mr. Paul F. Mertins at 202-962-7301, in Washington, D.C.

Data requested on this financial survey are for the fiscal year of your institution.

Data for your institution which are not kept on the books of account of your institution, but are kept on the records of another organization or agency for your institution, should be included *(e.g., State schools should report physical plant even though records are maintained by a State agency).*

Estimated value of "contributed services" *(members of a religious order only)* should be included under revenues *(private gifts)* and expenditures in appropriate categories.

In reporting Federal funds received, include those Federal funds channeled through State agencies.

Exclude agency funds; i.e., funds handled by the institution in a custodial capacity only *(e.g., funds for student organizations).*

Detailed instructions and definitions are provided for each part. If further explanation is necessary, consult the **College and University Business Administration, Revised Edition.**

All data reported should be whole dollars only--omit cents.

Please complete this survey and return it to the U.S. Office of Education, National Center for Educational Statistics, 400 Maryland Avenue, SW., Washington, D.C. 20202, ATTENTION: Room 1130-HEGIS, not later than **November 30, 1970.** This form should be completed and returned within 3 months after the close of the fiscal year for your institution *(e.g., if your fiscal year closes on May 31, the form should be returned by August 31; if on June 30, by September 30, etc.).*

NOTE: This year's form is in six parts. For any item in any part where exact data do not exist, please give estimates. Items referenced in specific instructions below will be referred to by their line numbers.

SPECIFIC

PART A - CURRENT FUNDS REVENUES BY SOURCE

LINE 1. This line is the sum of Lines 2, 3, 7, 8, 9, 16, 17, 24, 27, 28, and 29.

LINE 2. Report all tuition and fees assessed against students for educational and general purposes. Include here those tuition and fees which your State collects and returns in the form of State appropriations. Tuition and fee remissions or exemptions should be assessed and reported as student fees revenues although it is not intended to effect collection from the students. A corresponding amount, as well as the amount of other student aid granted out of current funds revenues, should be shown as expenditures of student aid grants *(Part B, Line 11).*

LINE 3. Governmental appropriations include all amounts received from governmental sources that are expendable for educational and general purposes. This item is the sum of Lines 4 through 6.

LINE 7. Report income from investments of restricted and unrestricted endowment, term endowment, quasi-endowment funds, Federal and State land-grant funds *(land-grant institutions),* and income from funds held in irrevocable trusts by others.

LINE 8. Report educational and general revenues given to the institution by any nongovernmental source. Include estimated value of services contributed by members of religious orders *(a corresponding amount should be reported under expenditures).* Include bequests. Do not include funds received for specified research or other sponsored programs in accordance with grants, contracts, or other written agreements.

LINE 9. Sponsored research includes revenues from outside organizations for specific research projects made in accordance with written agreements. Do not include recovery of indirect costs here. Do not include Federally Funded Research and Development Centers *(Lines 10 through 13).*

LINE 13. Include revenues from nongovernmental sources such as foundations, business corporations, other organizations, or individuals which are received in accordance with contracts, grants, or other written agreements. This line is the sum of Lines 14 and 15.

LINE 14. Report revenues from grants or contracts to do research of a philanthropic nature.

LINE 15. Report revenues from written agreements to do sponsored research which is not primarily philanthropic in nature *(i.e., proprietary research).*

LINE 16. Report gross revenues for separately organized research divisions that are not financed in the manner described for sponsored research *(Line 9).*

LINE 17. Include for sponsored programs all separately budgeted programs, other than research, which are supported by sponsors outside the institution. Examples are training programs, workshops, training and instructional institutes such as counseling institutes, college work-study programs, and similar activities for which payments are made in accordance with contracts, grants, or other written agreements *(Lines 18 through 21).*

LINE 21. Nongovernmental should include revenues from foundations and other nongovernmental sources *(Lines 22 and 23).*

LINE 24. Include recovery of indirect costs accruing from sponsored research and other sponsored programs *(Lines 25 and 26)*.

LINE 27. Incidental revenues of educational departments are included here.

LINE 28. This category should contain revenues of activities organized and operated in connection with instructional departments, and conducted primarily to provide instructional or laboratory training of students. Include, also, revenues for activities of a cultural nature, e.g., concerts, dramatic productions.

LINE 29. This item is for revenues for educational and general purposes not covered elsewhere. Important items and those of major magnitude which are reported here should be explained in a separate note, or attachment, accompanying this survey.

LINE 30. Student aid grants--do not include loans or work assignments. Report only grants, scholarships, and fellowships to students for which no services or repayments are required of the student. This item is equal to the sum of Lines 31 through 36, inclusive.

LINE 37. The figure reported here should be the sum of Lines 38, 39, and 40.

LINE 38. Report revenues only for those organizations which are designated as "Federally Funded Research and Development Centers" by the sponsoring Federal agency. Include total revenues for both "in-house" activity and subcontracts and for both direct and indirect costs.

LINE 39. Report revenues from hospitals in which service to the community or State is paramount.

LINE 40. Report revenues from other major service programs or activities that are not essential in meeting the educational objectives of the institution.

LINE 41. Auxiliary enterprises represent the sum of Lines 42 and 43. Report gross revenues of activities which furnish a service to students, faculty, or staff, and which charge a fee to cover the cost *(or a portion thereof)* of the service.

LINE 43. Examples of other auxiliary enterprises would be college unions, revenues from intercollegiate athletics, etc. If of major magnitude, attach to this form a note explaining which items are included in this item.

LINE 44. This line should include ALL current funds revenues. It is the sum of Lines 1, 30, 37, and 41.

PART B - CURRENT FUNDS EXPENDITURES BY FUNCTION

NOTE: For Part B, report expenditures of both restricted and unrestricted funds made for current operations.

LINE 1. Report the sum of Lines 2 through 10, inclusive.

LINE 2. Include all expenditures of the departments, colleges, schools, and instructional divisions of the institution.

LINE 3. Report expenditures for those activities listed on Line 28 *(Part A)*.

LINE 4. Report expenditures for those activities listed on Line 9 *(Part A)*. Do NOT include expenditures for indirect costs.

LINE 5. Report expenditures for research divisions and activities which are not for sponsored research or instruction and departmental research.

LINE 6. Other sponsored programs -- report expenditures for those activities mentioned on Line 17 *(Part A)*. Do NOT include indirect costs.

LINE 7. Extension and public service refers to educational and other activities designed primarily to serve the general public. However, do NOT include major service programs *(Lines 13 through 15)*.

LINE 8. Libraries -- report total expenditures for separately organized libraries, both general and departmental. Include operating expenses *(salaries, wages, etc.)*, books, subscriptions, etc.

LINE 9. Include salaries, supplies, materials, and other expenditures for maintenance and operation of all facilities except those properly charged to auxiliary enterprises and organized activities relating to instructional departments.

LINE 10. Include all expenditures of the general executive and administrative offices, expenditures for services to students, staff benefits expenditures, and other expenditures for educational and general purposes not included above. Do not include expenditures chargeable to auxiliary enterprises, organized activities, libraries, or physical plant operations.

LINE 11. Report expenditures for all student aid grants.

LINES 13 through 15. Report expenditures for those activities listed in Part A *(Lines 38 through 40)*.

LINES 16 through 18. Report gross expenditures of all auxiliary enterprises--include their physical plant charges, general institutional expenses, administrative charges, and other indirect costs.

LINE 19. Total current funds expenditures is the sum of Lines 1, 11, 12, and 16.

LINE 20. How much of total expenditures reported by your institution on Line 19 was expended for physical plant assets? If data are not available, then estimate the figure. Report in whole dollars only.

PART C - PHYSICAL PLANT ASSETS FOR FISCAL YEAR ENDING 1970

In Part C, report data on physical plant assets: land, buildings, and equipment *(not plant cash or investments of plant cash)*. Data for your institution which are not kept on the books of account of your institution, but are kept on the records of another organization or agency for your institution, should be included *(e.g., State schools should report physical plant even though records are maintained by a State agency)*.

LINE 1. Report all land values except those land values which are a part of endowment or other capital fund investments in real estate.

LINE 2. Buildings include all buildings except those which are a part of endowment or other capital funds investments on real estate.

LINE 3. Equipment includes all equipment which your institution includes as an asset on inventory records.

COLUMN (2). Book value of plant at the beginning of the fiscal year is intended as the dollar amount of value as shown on the institution's accounting records. Provide estimates for assets not recorded in the accounts of the institution.

COLUMN (3). Additions during the year are additions to plant made through purchase, by gift-in-kind from donor, and from other additions.

COLUMN (4). Deductions from the plant are deductions resulting from selling, razing, fire or other hazards, or other disposition of assets, or from obsolescence.

COLUMN (5). Book value of plant at the ending of the fiscal year is intended as the dollar amount of value as shown on the institution's accounting records. Provide estimates for assets not recorded in the accounts of the institution.

PART D - INDEBTEDNESS ON PHYSICAL PLANT FOR FISCAL YEAR ENDING 1970

In Part D, report data on indebtedness liability *(principal only, not interest)* against the physical plant. Include auxiliary enterprises facilities as well as educational and general facilities. Examples of auxiliary enterprises facilities are those used for operation of housing, food service, bookstores, and other units which are classified as auxiliary enterprises.

LINE 1. Balance owed on indebtedness principal at the beginning of the year is that amount shown in the liability section of the plant fund balance sheet.

LINE 2. Additional principal borrowed during the year is loans received through bonds, mortgages, notes, or any other type of financing *(including short-term notes)* and amounts borrowed from other institutional funds.

LINE 3. Payments on plant loans principal during the year is the amount expended to reduce the principal of loans, regardless of the source of funds.

LINE 4. Balance owed on indebtedness principal at the ending of the year is that amount shown in the liability section of the plant fund balance sheet. It is the sum of Line 1 plus Line 2, less Line 3.

PART E - ENDOWMENT BY BOOK AND MARKET VALUES, EARNINGS, AND REALIZED GAINS FOR THE FISCAL YEAR ENDING 1970

In Part E, report data on investment of endowment, term-endowment, quasi-endowment *(funds functioning as endowment)* and endowment held in trust by others.

LINE 1. Book value at the beginning of the fiscal year is the value shown on the accounting records of your institution.

LINE 2. Market value at the beginning of the fiscal year is the value shown usually in the footnotes of the annual financial report. *(If market value on some investments is not available, use whatever value was assigned by your institution, as included in the footnote.)*

LINE 3. Book value at the ending of the fiscal year is the value shown on the accounting records of your institution.

LINE 4. Market value at the ending of the fiscal year is the value shown usually in the footnotes of the annual financial report.

LINE 5. Earnings include all earnings *(not realized gains)* on investments of endowment regardless of distribution made of the earnings to various institutional funds.

LINE 6. Net realized gains are appreciations *(amount selling price is greater than purchasing price)* on securities and other investments sold during the fiscal year. Not all investments are sold at a gain. Losses should be subtracted from gains in reporting here.

PART F - BASIC STUDENT CHARGES FOR ACADEMIC YEAR 1970-71

1. It is recognized that tuition and required fees and room and board charges are not the same for all students at an institution. Therefore, in selecting the single figure that will be most appropriately representative of your institution and comparable to other institutions, please be guided by the following:

   a. Include all fixed sum charges which are REQUIRED of such a large proportion of all students that the student who does not pay the charge is an exception. If the amount varies depending upon the class level of the student, subject matter major, the courses taken, etc., estimate the typical or modal amount for charges which are required.

   b. Do not include any charges which are clearly optional.

2. Report charges for the academic year. The academic year is the period of the regular session, generally extending from September to June, usually divided into 2 semesters, 3 quarters, or 2 trimesters. Most baccalaureate degrees are received after 4 or 5 academic years of attendance. For baccalaureate degrees requiring 4 academic years of attendance this usually comprises 8 semesters *(2 per year)* or 12 quarters *(3 per year)* or 8 trimesters *(2 per year)*, even though it may be possible to receive the degree in a shorter calendar time, such as completing 12 quarters in 3 calendar years or 8 trimesters in 2-2/3 calendar years.

3. If the institution has a single lump-sum charge for tuition, required fees, room, and board, please apportion the lump-sum charges among the appropriate categories.

4. Omit cents in reporting dollar amounts.

TUITION AND REQUIRED FEES

ITEM A. Undergraduate students are those who have not obtained a bachelor's degree: (1) all students in bachelor's degree programs which require at least 4 years but fewer than 6 years of college work; and (2) all students in occupational or general study programs which require 1, 2, or 3 years of college work and which are designated to prepare for immediate employment, or to provide general education rather than as the first 1, 2, or 3 years of a bachelor's degree program.

ITEM B. Graduate students are those who have attained at least one standard bachelor's degree or first-professional degree and are or could be candidates for master's or doctor's degrees. They do NOT include candidates for the degrees of DSC, Pod.D, DDS, DMD, MD, OD, DO, DVM, LLB, JD, BD, or other first-professional degrees.

The "in-district" *(Lines 2 and 6)* and "in-State but not in-district" *(Lines 3 and 7)* distinctions apply only where an institution, usually a community college, has different rates for those types of students.

LINES 2 and 6. "In-district" students are those living in and attending an institution operated by the same district or political subdivision within a State as the institution.

LINES 3 and 7. "In-State but not in-district" students are those living in the State but not living in the district in which they are enrolled. If there is an additional fee for in-State students from outside the district of the institution, and the fee is charged to the student and not to the home district of the student, the sum of this additional fee and the regular fee for in-district students should be entered in Lines 3 and 7. The foregoing is applicable to undergraduate and graduate students.

Public institutions which have only two rates, one for residents of the State, and one for nonresidents, should report their fee rates on Lines 3 and 4 for undergraduates and on Lines 7 and 8 for graduate students, entering "N.A." *(not applicable)* on Lines 2 and 6.

ROOM AND BOARD CHARGES.

ITEM C. Report as room charge *(academic year)* the modal charge to a typical student sharing a room with one other student.

ITEM D. Report as the board charge *(academic year)* the modal charge to a typical student. Please check the number of days per week for which the board charges are applicable *(5, 6, or 7)*.

If your institution makes a combined charge for room and board, please make an estimate of the proportions of the total charge in each of the categories.
